The Institute

The Biomedical Research Institute of Lleida, Dr. Pifarré Foundation (IRBLleida) was created with the aim of creating synergies between basic, clinical and epidemiological research, making biomedical research a key driver to improve current clinical practice. IRBLleida covers a chain of translational research, from basic research, aimed at understanding the physiological and pathological mechanisms of the human body, to research that studies the behavior of diseases in large population groups.

IRBLleida was founded in 2004 through a collaboration agreement between the University of Lleida (UdL) and the Catalan health system. IRBLleida integrates research groups from the faculties of Medicine and Nursing and Physiotherapy of the UdL. On the other hand, we incorporate research groups of:

1. The Catalan Institute of Health ([ICS](#)) both in the hospital field (Arnau de Vilanova University

Hospital-HUAV) and [in primary care in Lleida](#) and the [Alt Pirineu-Aran Health Region](#).

2. The healthcare provider [Gestió de Serveis Sanitaris \(GSS; Santa Maria-HUSM University Hospital, Pallars Regional Hospital](#) and [Mental Health](#), among others).

IRBLleida has been a CERCA institute since 2013, and consequently it is organized according to a model of good governance and operation that guarantees efficiency, flexibility of management, recruitment and promotion of talent, strategic planning and executive capacity.

In addition, it is one of the 34 Spanish Health Research Institutes ([IIS](#)) recognised by [the Carlos III Health Institute](#) and the Government of Catalonia, as established in Law 16/2003, of 28 May, on the cohesion and quality of the national health system.

HR EXCELLENCE IN RESEARCH

In December 2014, the Institute for Research in Biomedicine of Lleida received the '[HR Excellence in Research](#)' award from the European Commission. This is a recognition of the Institute's commitment to develop a human resources strategy for researchers, designed to align practices and procedures with the principles of the [European Charter for Researchers](#) and the [Code of Conduct](#) for the recruitment of researchers (Charter and Code).
